

*Internship opportunity with*

# URS Corporation

URS is the largest global engineering design firm and a leading U.S. federal government contractor providing a comprehensive range of professional planning, design, systems engineering and technical assistance, program and construction management, and operations and maintenance services. We have 29,400 employees in two divisions: the URS Division and the EG&G Division, which includes the operations of Lear Siegler Services. Together, we serve the U.S. federal government, state and local government agencies and private-industry clients, including *Fortune* 500 companies worldwide.

URS Honolulu Office is seeking bright, motivated graduate students and students in their 3<sup>rd</sup> or 4<sup>th</sup> year of undergraduate studies to participate in an internship program with the School of Ocean & Earth Science & Technology (SOEST) at the University of Hawaii.

The intent of the internship is two-fold:

- To establish a working relationship with SOEST students in hope that when they graduate, they will consider careers with URS; and
- To provide SOEST students with hands-on “real-world” training that will equip them with industry-marketable skills.

URS interns have typically been geologists, environmental scientists and engineers. They have worked with us during the summer months as well as quarters/semesters. Typical projects include:

- Preparation of data tables and reports;
- Spatial analysis of data in support of contaminant fate and transport modeling;
- Field logistics planning;
- Business marketing support; and
- Project administration support

**A maximum of two interns will be accepted per semester. Applicants will be contact by URS for interviews upon receipt of a successful application.**

To apply, submit a letter of interest, resume, and transcript to:
